Attention: Me M. Penwarden

Dear Madame

**CONFIRMATION OF LANDFILL CAPACITY FOR THE PROPOSED
DEVELOPMENT: INDUSTRIAL PARK, CHAMPAGNE ROAD,ERF 34,
WELLINGTON:**

Your request refers:

Drakenstein Municipality confirms that there is sufficient landfill airspace to accommodate 394 800m³ until final closure profile.

Survey done in November 2016, has indicated that full capacity will be reached in March 2019, should current landfill operations continue as per status quo.

Improved landfill compaction and waste diversion, will result in extension of landfill capacity till December 2020.

Extension of the berms till maximum permit conditions, will add to a further extension of available airspace.

Yours faithfully

**D HATTINGH Pr Eng
EXECUTIVE DIRECTOR: ENGINEERING SERVICES**
